01.

Discover Malaga with all the senses. Breathe and find the perfect reflection of all these sensations in the hotel itself and in its surroundings. The perfect climate, the right place.

*mART*laga

Higuerón Hotel Málaga Curio Collection by Hilton is located in the heart of the Costa del Sol. If you are an art lover, you will appreciate everything Málaga has to offer: Picasso Museum Malaga; Pompidou Center, Carmen Thyssen Museum.

Malaga offers you an incomparable nature as you can enjoy enjoying the Caminito del Rey. Contemplate the beauty of the Mediterranean Sea, witness its history and know the identity of a city with a history that goes back to the Phoenicians.

Andalucía activa

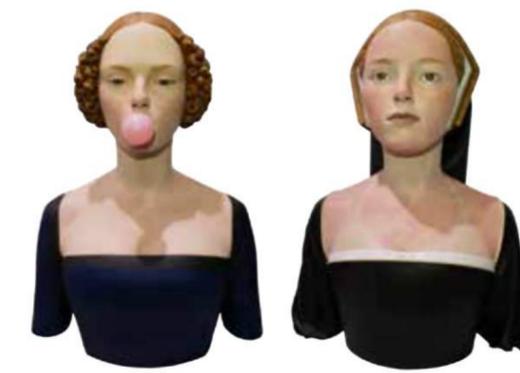

For CURIOS explorers who enjoy hiking under the stars and escaping from the city lights while traveling in a spontaneous, rustic and authentic style. From our hotel we propose to our clients "Andalusia without suitcases". The privileged location allows you to visit the monumental sites of Seville, Granada, Córdoba or Cádiz and you can return to the hotel after making these dazzling visits to the Andalusian cities.

For golf lovers

Enjoy in very few kilometers the best golf courses in a unique climate in Europe.

The tee of the 1 is waiting for all the "CURIOfolgers" who want to enjoy the "golf coast"

Higuerón Hotel Málaga Curio Collection by Hilton, a space of artistic, gastronomic and wellness creation that condenses the best essence of Malaga.

On their tour of the different areas of the hotel, travelers will be surprised discovering the best local, national and international art of renowned creators through two collections, one permanent and one itinerant.

Our "CURIOtraveller" will also enjoy an experience that integrates from the white color of the traditional villages of Andalusia and materials such as ceramics, wood and cork that are treated in an avant-garde manner are part of the building materials of this southern area of Europe.

Finally, the water, so important in this area, is part of the hotel's proposal in the form of pools and fountains.

It is, in short, a kaleidoscopic proposal in the form of an art gallery that goes beyond the visual.

Find the ART everywhere

Aquaponía

Sustainability & Innovation

TRAVEL **WITH PURPOSE** 

**"A part of
our
contribution
to sustainability"**

For the first time in the sector, our hotel houses an on-site hydroponic farm, which is used to supply the first fully sustainable Michelin star restaurant that is housed inside the hotel.

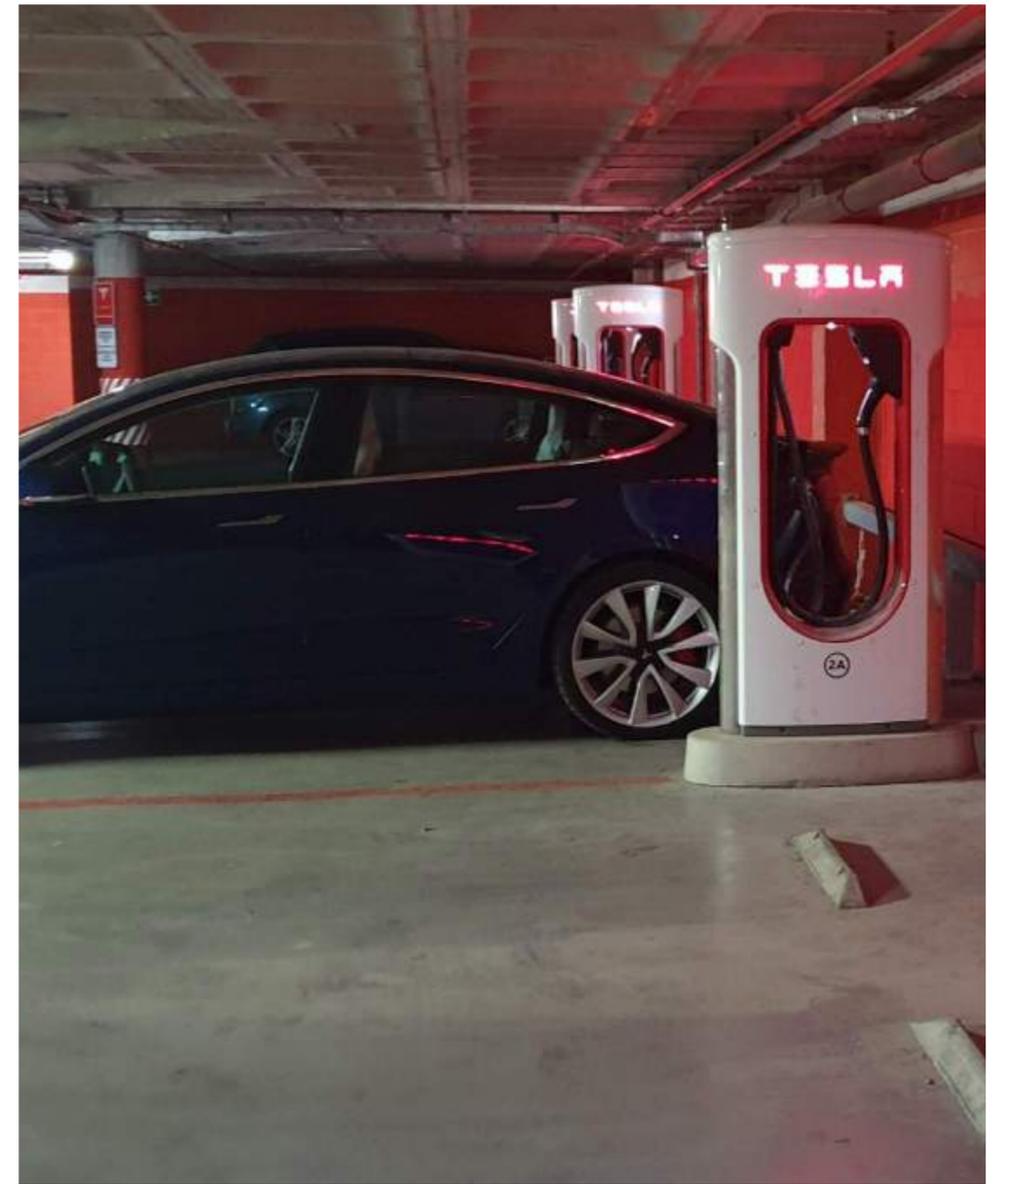

All the products that are served in the restaurant come from this fish farm and the vertical organic garden. GASTROPONIA is our innovative proposal for a sustainable gastronomy.
